MD. Samrat Hossen

Software Engineer

nayakemily50@gmail.com | Samrat Hossen | SamratEmily | Samrat | Portfolio

PROFESSIONAL SUMMARY

Laravel/React Full Stack Web Developer with **2 years of professional experience**. Well-versed in creating scalable and robust web applications, RESTful APIs, and modern full-stack architectures. Proficient in working on **WooCommerce, Dokan,** and WordPress plugins, along with several successful Laravel and React development projects. Enjoys solving programming challenges with **prior experience in competitive programming**.

EDUCATION

B.Sc Engineering (Computer Science and Engineering) 03/2018 – 01/2024
Comilla University Cumilla
CGPA: 3.71 Out of 4.00

PROFESSIONAL EXPERIENCE

Software Engineer 04/2026 – Present
Beacon Soft Ltd.
- Working on an LMS website for university admission students.
- Built a specialized point-of-sale system to manage laundry service.
- Engineered a custom plugin to display media articles and press archives.
- Integrated a management tool to handle vehicle fleet tracking.

Software Engineer 05/2024 – 03/2026
weLabs Ltd. - Sister Concern of weDevs Ltd.
- Developed and customized multiple production e-commerce solutions based on **WooCommerce** and **Dokan** plugins, including custom REST APIs for mobile app integration (tested with Postman).
- Built and extended features across **20+ e-commerce websites**, focusing on enhanced functionality, user engagement, checkout flows, and plugin customizations (WooCommerce, Dokan, WePos, WP Project Manager).
- Key projects:
  - **FajrFair** (Online Books Store): Converted Figma design into a full multi-page e-commerce platform with HTML/CSS/JS/PHP/MySQL and WooCommerce.
  - **Booxos**: Integrated Vue.js for PDF generation (vue-html2pdf) and customized WooCommerce/WePos/Dokan settings.
  - **SoHa-Living**: Developed multiple REST APIs for project management, HR, community, and portfolio management.
  - **Exernium**: Created custom REST APIs to extend WooCommerce and Dokan for mobile app usage.
  - **Bazaarica-Kozmetica**: Extended features of WooCommerce and Dokan plugins.
- Strong focus on scalable backend solutions, plugin development, and delivering client-ready WordPress-based systems

PERSONAL PROJECTS

Journalist Portfolio
Developed a customized WordPress plugin to manage a journalist's portfolio as follows:
- Featuring Stories
- Managing Awards, Photos, and Video Gallery

Published Plugins On WordPress Org
- **Mailkeep** : Logs all emails triggered by wp_mail().
- **Cachelum** : Lightweight caching with intelligent page caching and code minification to optimize performance.
- **PathGuard Redirects** : Lightweight URL redirect plugin (an alternative to Wordfence for URL control).

Social Media
Technologies: Laravel, ReactJS
- Utilized **JWT (JSON Web Tokens)** for stateless authentication and cross-origin resource sharing.
- Designed a **High-Performance Feed** using Laravel's **Eager loading** to resolve N+1 query issues
- Implemented **Cursor-Based Pagination** and **Counter Cache Synchronization**.
- Leveraged **Redis Membership Sets** to offload relationship checks.

Sohoj Biye
Technologies: Laravel + ReactJS
Developed a trusted platform for the marriage of Bangladeshis.
- Developed a centralized **Complaint Management System** allowing users to report suspicious activity, ensuring a safe and respectful environment for all members.
- Built a dynamic discovery feed for biodata matching and a **permission-locked chat system** that only activates upon mutual proposal acceptance.

SKILLS

- **Backend & Frameworks**: Laravel, PHP, RESTful API Development, MySQL
- **Frontend Technologies**: React.js, Vue.js, JavaScript, HTML, CSS
- **E-commerce & CMS**: WooCommerce, Dokan, WordPress Plugin Development
- **Tools & Methodologies**: Git, Problem Solving, Agile Development

PROBLEM SOLVING EXPERIENCE

- Participated in at least 7+ national and regional level programming contests including NCPC,ICPC preli.
- Participated in at least 150+ online programming contests in various OJ including codeforces, atcoder etc.
- Solved at least 1500+ problems in different Online Judges i.e. Codeforces, LightOJ, Leetcode, Spoj, etc.

CONTEST ACHIEVEMENTS

7th - CoU Intra Programming Contest - 2019 (IUPC), Team: CoU_3_Dimension

12th - NWU CSE FEST - 2023 (IUPC), Team: CoU_LastShot

12th - Intra CoU Programming Contest 2020, Team: CoU_3_Dimension

17th - Britannia University Inter University Programming Contest 2020(IUPC), Team: CoU_3_Dimension

29th - CoU CSE Fiesta 2018 - Inter University Programming Contest (IUPC), Team: CoU_3_Dimension

33th - Independent University INWED_TECHFEST 2019(IUPC), Team: CoU_3_Dimension

45th - Tech Carnival 1.0, CUET - 2021 (Regional), Team: CoU_3_Dimension

137th - NCPC 2023, Team: CoU_LastShot

Actively seeking opportunities at top-tier companies to contribute, grow, and innovate.
